

Boston collection

Catalogue 2015

Street furniture from the Boston collection is a combination of modern designs with original structural solutions. These are the city benches, litter bins and planters that are beautiful in their simplicity, and also unique due to the perfectly crafted details.

If you are looking for new architectural solutions and you need change, but at the same time you want to avoid a designer revolution, refer to the products from the Boston collection. Why is it so versatile? Because despite of the classic shapes, it incorporates innovative ideas - the perfect way to combine tradition and modernity.

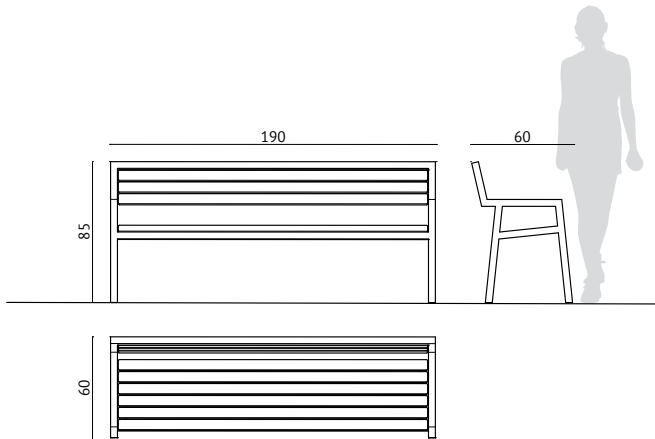

Please contact us, I will prepare an individual offer for you with pleasure.
