

Vega collection

Catalogue 2015

Who said concrete products can not be a work of art? Vega collection, including city benches, planters, litter bins is exclusive street furniture for fans of an original style. It perfectly fits in with every space, which should be characterized by elegance and unique character. Polymer concrete is one of favorite materials of creators who promote minimalist style.

Thanks to its plastic properties, it has become a symbol of individuality and avant-garde approach to the arrangement of interesting urban spaces. Vega collection is a proof, that with the help of concrete one can perform the most sophisticated architectural forms. Our architects have loved it for the elegant austerity, creating street furniture with exclusive design.
